Yes!

You have an original trip itinerary in your hands and we believe that it inspires you to discover the magic and culture of almost the entire eastern side of our Small Carpathians – from Rača to the highest mountain Záruby.

When creating this guide, we thought primarily about you with enthusiasm, dear visitors. About your uniqueness and mood. We hope to please everyone so that researchers, experts, athletes, gourmets and connoisseurs or lovers of wine, crafts, design, history, lookout points, picturesque

nature and countryside have a field day. Trip inspiration is stacked in six small locations so that you can move as little as possible by car, take advantage of the rich network of cycle routes and feel the essence of the region as much as possible. Feel free to find your inner rebel and don't stick to the strictly offered scenarios, as this rich information also provides enough freedom for your own original trip combinations.

We wish you a lot of joy on your trips to discover and enjoy! team of authors

Yes, a trip! Small Carpathians

Yes!

Refreshing

Svätý Jur → Slovenský Grob

picnic in wonderful secluded places

Treat yourself to a good night's sleep before the trip and head in the direction of **Svätý Jur**, or more precisely, to **Jurský Šúr** in the morning. It's a natural phenomenon that's ten thousand years old, the only one of its kind in Central Europe. Enter the reservation from the Bratislava side of the town and go to the **Panónský Grove** along the large pond. There are innumerable species of slugs, frogs, and reptiles in the wetlands and inside the grove, you may also see deer, herons, turtles and many endangered bird species and rare plants. You can also conquer the entire four-kilometres-long **nature trail** in Šúr. If you have a picnic lunch with you, eat in the countryside, even on the banks of the pond.

roam through ancient architecture

If you enjoyed the untouched Jur countryside without lunch and your tummy is a rumbling, on your way to exploring the town, stop at the **Garage Caffe Bar** with a summer terrace. You're able to get a burger or something from a classic daily menu, eat well! **Our Small Carpathians Travel Guide** will guide you on your walk through the town. The app includes valuable information about the wealth of the **Town Conservation Reservation of Svätý Jur**. You'll as be able to get to the town fortifications, or the Gothic Church of St George with a very rare altar, the old wooden belfry, the synagogue, the Pálffy Manor House, or to the horse-drawn railway station. You'll be enchanted by the 500-year' old **Renaissance Wine House**, the courtyard which was immortalised by painter Frederick Karl von Scheidlin in the 19th century. The unchanged and still functional form of the house has been preserved to this day. Inspirational traditional events take place here. Do you like to discover new places on two wheels? The **Small Carpathian-Šúr cycling route Jurava** connects Svätý Jur with Rača and Vajnory.

in the artist's garden and in the forgotten county

The renowned **Čokokafé** has its space in the Renaissance House, thanks to sweet treats (also gluten-free), ice cream and coffee. Nearby, the aforementioned nobleman and painter left his garden as a gift to the town, he liked to create in it, since then it's gone by the name of **Scheidlin's Garden**. You can relax while your children play in there. After a sweet 'chocolate break', explore one of the oldest manor houses in Svätý Jur, head to the **Gothic Biely Kameň ('White Stone') Castle** ruins. It's located on a wooded hill just above the town. Breathe deeply, let your imagination run wild and play explorers. For example, try to imagine what the castle once looked like and how they probably lived in it.

day tuned by wine tasting

When you run back, refresh yourself with the award-winning **Dubovský & Grančič** wine from Svätý Jur vineyards. The two winemakers built their brand on a long tradition of ancestors. Have you ever tried orange wine? Or visit **Vinocentrum Svätý Jur**, a unique wine shop with a truly rich selection of 90 wines. Taste and buy local wines from 20 Svätý Jur wineries. In the historical premises of the Piarist Monastery you'll always find an open family winery in the afternoon, **Vinárstvo s vinotékou Bognár (Bognár Winery with a wine shop)**, which also receives valuable medals for its wines, even abroad.

and crispy roasted.

Treat yourself to a feast with excellent Small Carpathian wines! It's worth going to nearby **Slovenský Grob** for a good meal. Crispy roasted goose, delicious roasts and famous Grob potato pancakes called **lokše** (even gluten-free) are prepared here according to ancient recipes. The 100-year' old gourmet tradition is maintained by the **Slovenský Grob Geese Roasters Guild**. There are seven of them, they have their detailed website with a localised map, so you just have to choose. You'll definitely enjoy the meal, even at random! In Grob, you'll also discover the exceptional **Chateau-vin Wine Shop**, which doesn't just focus on the popular and most sought after Small Carpathian wines. We believe that the gourmet experience will be worth it and you'll return home with a 'bottle' as a reminder of this refreshing trip.

Yes!
Remarkably
great

Pezinok → Vinosady

with a beautiful morning

If you go out on an empty stomach, you'll appreciate the fresh breakfast in a secluded, yet pleasant urban location in the centre of **Pezinok**. **BonŽúr Café** offers you a sweet-smelling coffee, spelt flour desserts and also offers food to go. Start exploring the town and take a look at the **Town Museum** – the permanent exhibition will present archaeological attractions from the surroundings and you can see beautiful sacral sculptures by a Pezinok ceramist, Jozef Frank, in the **Ján Kupecký Gallery**, which is part of the Museum. The largest collection of ancient grape presses is located in the **Small Carpathian Museum**, and you can experience unusual wine tastings on request, for example, in total darkness or with music and multi-coloured lighting.

on horseback and on skates

When you head to the oldest vineyards in Pezinok, you'll enjoy discovering the Small Carpathians in the **Rozálka Resort**. The hotel has an equestrian facility where you can try horse riding. Pony rides are organised for children in nice Sunday weather. Relax in the restaurant with a terrace and decide if you prefer to walk in the vineyards or enjoy ice skating. Because there is a new **Pezinok Winter Arena** next to Rozálka. Take a Small detour of this mostly Pezinok trip to **Ali Farm in nearby Vinosady**. Uncover the secrets of bee life, learn beekeeping skills and believe it or not, ride a real Gobi Desert. The farm has goats, sheep, piglets, peacocks, llamas and other animals.

though the 'aisles' of grapevines

Extensive rows of vineyards with a hilly panorama radiate the atmosphere of the place, which will lure you for a walk or a light cycling experience along the **Wine Trail**. You'll learn about remarkable places and historical facts from the wine-growing and wine traditions in this locality and from a distance you'll also notice a special rocker well. Part of the trail is a **mini-exhibition Stone and Wine of the Small Carpathians Geopark**, or a stone where grape vines grows is the secret of good wine. The Geopark represents a whole area of 560 km² with 102 sites that will draw you into the world-famous geological, archaeological, economic and cultural features of the Small Carpathians. You'll literally know the deepest essence, which enabled the emergence of mining, viticulture and ceramics production in this area.

in the hiding places of little demons guarding the mines

When it's time to plan individual trips to explore the whole Small Carpathian Geopark, we have a tip for you to enjoy at least a small part of the mysteries of the surroundings. Search for the popular geocaches and gnome- or dwarf-like creatures – little guards of the mines! On the way along the **Mining Trail** you may meet some of them, but first of all, go to the part of Pezinok called Cajla from Rozálka or Ali farm, where the almost seven-kilometres-long nature trail begins. You'll pass the mysterious spa remains, look into the galleries and learn all about the mining of gold pyrite and true gold. It's a nice, easy hike!

spin the wheel and eat well.

Give pottery craft a go. Enjoy this possibility in the **Majolika R workshop in Pezinok – Grinava**. Creating clay objects will relax you, spinning the potter's wheel is a wonderful experience and an original memory will materialise from it. We know! It's arrived and it's well deserved, Mr Hunger! There are many good ways of dealing with it in Pezinok. Traditional Slovak and world cuisine will be offered in the town centre in the **Pezinský Preš** restaurant, or go to the **Lalia restaurant** in the Community Centre, where they generally focus on delicious Italian cuisine, as well as gluten-free variations. Treat yourself to a delicious wine in the **small wine bar U vínnej mušky** – they offer wines from Pezinok and the surrounding area. Enjoy!

Yes! Plentiful with the family

Budmerice → Šenkvice → Modra

breakfast in an English park

Start in style like in a Manet's picture, go to **Budmerice!** By the Lindava Forest, the Pálffy family had the charming **Budmerice Manor House** built in a combination of styles based on French chateau Renaissance patterns here in the late 19th century. However, during construction, the noblemen also thought about the surroundings and therefore formed a large English park, which is ideal for walking and picnics. What do you say, will you try English breakfast? Why not! All you have to do is pack toast with egg and bacon, mushrooms, cooked tomatoes, and typical English breakfast tea.

in the countryside magic on the outskirts of the town

Enjoy the panorama of the Small Carpathians on your way from Budmerice, and your next, this time experience-packed trip stop, will be **Modra**. Go to **Farm Pod Gaštankou**, where they're always happy to see you. This extraordinary space in the area between vineyards, sports complex and swimming pool, is great for active enjoyment for the whole family. Children will be happy with a contact zoo, playground and fragrant herb garden. They will offer you a great early homemade lunch, coffee from **Ebenica**, the Modra coffee-roasting factory and great Modra wines.

with an extraordinary artistic experience

When returning from the farm, you can take a short walk to **Holombec Valley to the national cultural monument – Štúr's Bench**, which is a place where Štúr used to sit and meditate under a large chestnut tree. Late lunch or an afternoon snack with a good 'tap' wine will be provided in the nearest **Kinečko Bistro**. And now, explore the arts and traditions! First of all, we recommend visiting the **Slovak Ceramic Sculpture Museum with the Ignác Bizmayer Gallery**, which is located in an interesting circular bastion, filled with the ceramic masterpieces of this extraordinary artist up to its full height.

from the Modra birds' eye view

Climbing to the reconstructed **Town Tower** will give you views of the Modra area, they're miraculous! When you are up there, look at the east side, you'll see the world-famous service trees (**Sorbus domestica**) on the 'terraces', according to experts, one of them is the largest in the world with a trunk diameter of 160 cm. You can also go to see them, taking a shortcut through the **Community Garden**, the entrance gate of which is just across the road, opposite the tower, only a few metres from an excellent ice cream parlour. You'll like the ceramic fairy tales from local masters in the garden. Run through the gate of the carefully guarded **historical town fortifications** to the hill with the famous trees. Then return to the square, to the nearby **Slovak Folk Majolica shop** so that you don't leave Modra without a gift. You might already be thinking of dinner, but if you still have time, make a quick stop in the neighbouring Šenkvice.

maybe even at sunset.

Wine lovers are advised to reserve time before dinner for 'pearl' tasting. The fact that 'pearls are born in the vineyard' is known to the Šebo, whose **winery Carpathian pearl in Šenkvice** is one of those with added value. They will be happy to tell you what care the vineyard requires, they will guide you through the wine cellars, you'll taste wines with a new design, and if you didn't dare to climb the ancient Modra Tower, you might be tempted by the winery lookout tower, which also offers nice panoramic views. For dinner and wine, you might return to 'from the Pearl'. Enjoy great food in the **Mlyn 108 restaurant**, and continue tasting delicious Modra wine at **Pivnica U Pradedu**. Alternatively, have a coffee in one of the local cafes and talk about what you enjoyed most about this trip.

Yes! Charming countryside

Dofany → **Červený Kameň** → **Častá**
→ **Píla** → **Dubová** → **Kráľová**

in the former market town

The ideal location for an unseen trip scenario around the Small Carpathian villages is **Dofany**. A good asphalt road leads you through the vineyards, fruit and chestnut orchards to the forest on foot or cycle. You'll reach the **gamekeeper's house at Zabítom**, a tourist crossroads with a spring and ponds. A little further away, you'll discover a very nice building – the **Solírov hunting lodge**. There are also nearby hills and connections for physically fit hikers to views of **Záruby or Vápenná**. You can enjoy rural hiking through the **Dofany historical trail**. There is a rarity here – a stone tower with a bell tower standing directly on the stream, as well as a small church with a small 'cave' set in a rock near the interesting Neo-Gothic Calvary. This place is surrounded with an arboretum with all kinds of trees marked with Slovak and Latin signs. You must also experience the charming space and atmosphere of one of the **Vína z Mlyna** winery's events. The old mill looks different than in the photo, but it's never lost its charm.

by historical motorcycles or noblemen

You can enjoy your lunch and admire the classic motorcycles collection at the **B-Club Dofany restaurant** or go straight to **Červený Kameň Castle to Taverna pod Baštou**. It won't just be the children who are impressed by the **Astur Falconry Court** in the castle premises, with the largest collection of flying birds of prey in Slovakia. Be sure to stroll around the park and gardens with peacocks. You can start exploring the corners of the castle moats by tasting wine at the castle bridge at the **Ján & René Pretzelmayer Wine Shop**. There is a giant **500-year' old chestnut tree**, the largest in Slovakia, growing on the edge of the vineyards below the castle in the village of **Častá**. It's 23 metres high, and measures 8.3 metres around its trunk and a marked path leads to it from the centre of the village. It's majestic! Well, try fresh **cakes from the local bakery in Častá**, which is open almost non-stop.

through the valley to the stables

You'll be guided around the castle by the **Okolohradná potulka ('Round the castle wandering')** nature trail leading through an old Jewish cemetery, to a lookout point at Kukla Hill, alongside the Pálffy Burial Chapel to Calvary with a Baroque sculpture, to old mines and back to the castle. Or take the path from the castle through the forest to the picturesque village of **Píla**, which was an important part of the Červený Kameň noblemen. There were water and steam sawmills, 'flour mills', a well-known paper mill, a fabric factory and Pálffy's laundry. The **nature trail** also guides you through part of this history. When you head to **Dubová**, try to notice a subtle turn in the woods to visit the quiet **Margitín dvor** – a family farm with horses, following Churchill's statement: 'No hour of life is wasted when it's spent in the saddle.'

in a taproom early in the evening

Dubová, the village under Kukla Hill, isn't hidden at all and even if you don't have time now, don't miss the climb to this hill with a small lookout tower next time. You can park just under the forest near the Fúgelka Lodge. Stop for a meal in the **Hošťácka Viecha**, seen directly from the main road. You'll recognise it by its distinctive clear blue facade and rural appearance. They make their own wine and offer specialities such as homemade goat cheese and desserts. If you're travelling on Saturday, you'll find the cheerful Mrs Alice in front of the house nearby the restaurant, sitting at a small table, loaded with traditional Dubová sciskanice (potato buns with a filling) – try **Sciskanice by Alice!** She'll discuss production with you in the local dialect.

with artistic point.

The modern building **between Dubová and Modra**, which is worth seeing from outside and inside, is a winery with a generous gallery and a restaurant: **Zoya Museum & Elesko Wine Park**. The entire building is minimalist in design and makes the surrounding environment stand out. You can stroll through the art gallery, as well as through the magnificent wine cellars. You'll enjoy view of the surrounding forests and planted vineyards using the GPS system from the restaurant terrace. If you want to dine in a more home-like manner, we recommend a short transfer to **Kráľová** – the historical part of Modra, to the **tavern Biolka with a bakery**, where you will complete your trip in a charming countryside style.

Yes!

In good shape

Smolenice → Jahodník → Záruby → Horné Orešany

to the fairy-tale castle

Whether travelling by train, car or bicycle, you'll be welcomed from afar by its perfect silhouette among the tops of a forest park. The **Smolenice Castle**, which was once a medieval castle fortress, became a true fairy-tale oasis after its reconstruction. Although the builder followed the French architecture of 19th century castles, this action also influenced the development of romantic styles in Slovakia. The castle has stylish interiors and from its tower you can see the Danubian Lowland and Záruby, the highest peak of the Small Carpathians. Be sure to visit the **Smolenice cemetery with the rare Neo-Baroque Pálffy family tomb**, they owned the castle.

to the ancient fortified settlement or to the waterfall

Head to the nearby **Molpír Hill** from the castle or cemetery. You'll discover the remains of a large prehistoric and Slavic fortified settlement with a cult place and traces of advanced craftsmanship, iron and bronze processing. If you travel in the early spring, don't miss the tourist walk through the Smolenice Karst to the **nine metre' high Hlbočina Waterfall**. It is the only one in the Small Carpathians, they call it occasional, as you can only see a significant fall of water at certain times of the year. As for food on this trip, you might want to take a snack in your backpack, but you'll find several small pizzerias and restaurants in Smolenice.

in the depths of the hill and sweet paradise

There is also an underground pearl in the Small Carpathians in the **Jahodník** area – the **Driny Cave**, which lures you into a tangle of corridors, charming stalactite and stalagmite decorations in narrow cracks and 'jagged' calcareous sinter deposits, also called elephant ears. They can't be found anywhere else in Slovakia in such quantities. It's the only cave open to the public in Western Slovakia, and it's also important for the large bat colonies, in fact 11 species of bats hibernate there. Smolenice can boast **one of the best meads in the world** and you can taste it. A stylish shop with a castle backdrop, as if built from large honeycombs, will catch your attention from the road. Get different kinds of honey, mead, bee beer and brandy in **Včelovina**. You can also enjoy a pleasant adventure walk in the **beekeeping garden with art and educational exhibits**.

along the Carpathian heights

Experience a beautiful hike and give your physical condition a good test in all seasons by climbing the **highest peak of the Small Carpathians – Záruby, with an altitude of 768 metres**. You can start from Smolenice or Jahodník, there are more options and the choice is yours. If you have the time, continue through the ridge of Záruby to the **ruins of the magical castle Ostrý Kameň ('Sharp Stone')** – we highly recommend it! And don't be afraid to take children with you. With their energy they can handle it well and we guarantee that after this, lights-out will be trouble-free.

for delicious wine.

The **Small Carpathian Wine Route** rightfully reaches **Horné Orešany**, where you can sample the region's throughout the year. Orešany used to be a purely wine-growing village. A place worth visiting is the **Vino Dious Winery**. A modern, flourishing winery continues in the former glory of Orešany vineyards and the tradition of Pálffy history. It's housed in a unique 17th century arched wine cellar belonging to the Smolenice Castle. You can enjoy wine tasting and a cold bite in a stunning space decorated with period paintings and design chandeliers made of wine bottles. However, this exceptional tasting must be booked in advance, because the wine shop in Trnava is only open during the weekend. We wish you a wonderful experience!

MALE KARPATY TRAVEL GUIDE

Bratislava CARD

It's an official destination tourist card that allows you to discover and experience the best that Bratislava and our Small Carpathian region has to offer. You can buy it for a single day, two days or for the whole weekend.

With this card, you also get:

- free admission to 12 museums and galleries
- up to 50% discounts at up to 120 places
- unlimited travel on public transport
- free travel for one child accompanied by an adult

Learn more at:
www.visitbratislava.com
